Advanced Tactics Inc. is Awarded Funding for “Enhanced MAGTF Operations Aerial Delivery”

EL SEGUNDO, California, 20 April 2012 – Advanced Tactics Inc., a pioneering company in the development of roadable vertical takeoff and landing technologies, today announced that it was awarded a contract to study “Enhanced Marine Air Ground Task Force (MAGTF) Operations Aerial Delivery”. The program aims to study the feasibility of using Advanced Tactics’ vertical takeoff and landing aircraft platforms to perform autonomous cargo resupply. This capability is being developed in support of the military.

The funding was awarded by the Marine Corps Warfighting Laboratory to support the company’s existing “Multi-Mission Medical and Casualty Evacuation (CASEVAC) Unmanned Air Vehicle (UAV) / Unmanned Ground Vehicle (UGV)” program, which is sponsored by Congressional Special Interest funding and managed by the US Army Telemedicine and Advanced Technology Research Center (TATRC).

Work on the contract will begin immediately and will be performed at Advanced Tactics’ headquarters in El Segundo, California. The work is expected to be completed within 12 months.
